

PREPARING YOUR BUSINESS for Emergencies

First responders and FEMA encourage all businesses to develop an emergency preparedness plan.

Preparing for emergencies of all types and taking preventive measures reduces the impacts of a wide array of unplanned incidents.

The Knox Rapid Access System is an important and cost-effective addition to every business's proactive preparedness efforts.

Ensure your facility is equipped with the resources that provide first responders with access and also the critical information, safety, and security needed **when seconds matter.**

Contact your local authorized Knox Trusted Partner to customize a system for your business.

INVALUABLE EMERGENCY AND SAFETY RESOURCES

for First Responders and Facility/Security Personnel

RAPID ACCESS

Provide first responders with expedited and secure ingress with Knox key vaults, padlocks, and gate & key switches:

- Minimizes property damages and costly repair costs
- Reduces critical delays
- 24/7 access
- Secure riser room access
- Decreases potential forced entry injuries

KNOXBOX®

RISER ROOM BOX

KNOX PADLOCKS®

KNOX GATE & KEY SWITCH™

FDC PROTECTION

Protect fire department connections (FDC) with Locking FDC Caps. The caps ensure fire departments have quick and unrestricted access to the supplemental water needed for fire sprinkler systems and from hydrants:

- Locked caps keep debris from entering the connection
- Decreases theft of brass connections
- Increases safety by reducing opportunities for criminal activities

KNOX FDC LOCK™

KNOX STORZ LOCK®

KNOX STANDPIPE LOCK®

SAFETY SOLUTIONS

Increase safety with a remotely operated shunt trip breaker that removes/isolates power from a building or equipment:

KNOX REMOTE POWER BOX™

Designed for placement next to elevator banks for quick access by firefighters; it stores the elevator's override and drop keys, plus additional interior keys:

KNOX ELEVATOR BOX™

CRITICAL INFORMATION

Provide vital emergency response items such as floor plans, SDS, HAZMAT info., and keys for internal access, in a prominent and easy to find location for first responders:

- Facilitates compliance for SDS storage
- Access to emergency and evacuation plans
- Stores keys/key cards, and emergency contact info

KNOX DOCUMENT CABINET™
